Management commentary

Sector: Fresh produce processing and distribution

September was a difficult month. Wet weather in the Lockyer Valley reduced supply and pushed input prices up, and we were not able to pass all of the increase on to our two largest supermarket customers.

Gross margin for the month was the lowest this year. Twelve-month EBITDA is now $5.2m. We drew a further $1.2m on the revolver in August to fund higher working capital, and expect to repay part of this in November as receivables unwind.

We are reviewing freight contracts and have deferred non-essential capex until conditions improve.
